BIO

From his earliest days, he displayed an innate musical gift, nurtured by a family of musicians. By age two, LES had taken up the drums while also loving to sing. Under the guidance of John Blackwell Jr., and inspired by Larry Graham and Prince's wisdom to "execute your vision no matter the circumstances," he has crafted a unique musical identity. Today, LES & LRCFUNK embodies a fusion of eclectic sounds, underscored by vibrant collective energy. His recent singles, Emerald City, Close and Far, DarkSpace, I Found The 1, and Joy are available on all major platforms and define his eclectic musical sound. His forthcoming project promises a rich exploration of the influences that shaped his artistry.
